Summary

I am a passionate software engineer specializing in React.js development with a comprehensive background in engineering and experience in full-stack projects. I have effectively contributed to impactful healthcare applications, showcasing my ability to deliver responsive and scalable user interfaces. Proficient in HTML5, CSS3, JavaScript, React.js, Next.js, Redux, REST APIs, Git, and responsive design, I excel at building modern web applications. My strong problem-solving skills and collaborative development experience help drive successful project outcomes.

Skills

Html • CSS • Javascript • Bootstrap • React Js • Next Js • Tailwind CSS • Responsive designs • Axios

Experience

Cornerstohn Solution

Coimbatore

Frontend Developer

11/2022 - 04/2025

A software solutions company focused on providing innovative applications

- Worked in Purple Butterfly project (focused on autism), Bhairavi child development center project, and Love without reason. Utilized npm packages such as Hooks, Axios, Tailwind CSS, Redux and API integration
- Worked closely with a multidisciplinary team to design, develop, reusability of component and enhance the application's user interface and like API integration
- Contributed to developing features like patient-doctor scheduling, record management, and community engagement to enhance & collaborate with backend developer
- Developed a fully responsive WordPress website, Nclusyz, focused on simulation-based interventions for autism, ensuring a smooth and accessible user experience across all devices

Projects

Purple Butterfly

Development of a supportive ecosystem for Autism Spectrum Disorders care

- Contributed to the development of a digital ecosystem aimed at empowering stakeholders involved in Autism Spectrum Disorders (ASD) care in India
- Designed and developed a responsive application, incorporating advanced child mental condition assessment methods such as ABLLS and VB-map, maintaining records between doctors and patients

Bhairavi Child Development Center

Enhancement of healthcare applications through responsive design and API integration

- Successfully implemented and designed responsive APIs, enhancing multiple impactful experiences and accessibility in healthcare applications while maintaining medical records.
- Designed and implemented a user-friendly interface to manage doctor-patient records, track daily activities and tasks, monitor skill development, allocate resources, and support system configuration.
- Integrated Chart.js to visualize the gradual growth and development of children through interactive charts and progress tracking.
